DETAILED ACTION

Allowable Subject Matter

Claims 28-34 are allowed.

The following is an examiner's statement of reasons for allowance:

Nakashima et al., Myers et al., and Kochi et al. collectively teach a cell phone that includes a plurality of templates for distinguishing words from an image captured by a camera on the cell phone. However, Nakashima et al., Myers et al., and Kochi et al., and the additional prior art of record do not disclose or suggest that the templates are organized into predefined categories, where each category is associated with a unique audio signal, where the processor recognizes a selected category based upon manual input received after the audible recitation of the signal associated with one of the predefined categories, and the processor identifies the layout format of the captured image based solely on the plurality of templates within the identified category.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
